PROFESSIONAL SUMMARY

Full-Stack Developer with 1+ year of experience building production-grade interfaces with React.js, JavaScript, PHP, MySQL, and REST APIs. Skilled in building web applications, internal tools, and resolving production issues across APIs and databases.

TECHNICAL SKILLS

Languages: JavaScript, PHP

Frontend: React.js, React Hooks, HTML5, CSS3, Tailwind CSS

Backend & APIs: REST APIs, JWT Authentication

Database: MySQL, Supabase

Tools & Platforms: Git, GitHub, npm, Vite, Vercel, Shopify, Codex

WORK EXPERIENCE

Web Developer — Imaje Technologies, Chennai

Apr 2025 – May 2026

Domain: E-Commerce (Shopify Catalog & Inventory Systems)

- Automated inventory synchronization for a Shopify catalog using custom PHP scripts and REST APIs, eliminating manual updates and ensuring near real-time consistency across internal systems and storefronts.
- Performed proactive inventory reconciliation between MySQL databases and live Shopify storefronts across 13+ stores, identifying and resolving catalog discrepancies before customer impact.
- Designed and optimized complex MySQL queries for high-volume product catalog storage, validation, and synchronization, improving data integrity and performance.
- Investigated and resolved production data-sync issues across APIs, databases, and Shopify storefronts, collaborating cross-functionally to implement permanent fixes.

KEY PROJECTS

Multi-Store Inventory Synchronization Dashboard | [Demo](#)

React.js · Vite · Tailwind CSS · Chart.js · PapaParse · JSZip

- Built a client-side inventory reconciliation dashboard that imports vendor and storefront CSV exports, normalizes differing vendor schemas, and matches products by SKU.
- Implemented configurable low-stock alerts, critical-stock indicators, and interactive Chart.js analytics for inventory by store, match rate, and sync history.
- Added audit logging and CSV/ZIP export, and deployed the responsive app to GitHub Pages via automated GitHub Actions builds.

Smart Document Processing & Approval System | [Demo](#)

React.js · Supabase · Vercel · Tailwind CSS

- Implemented JWT authentication and role-based access control (Admin/Manager/Employee) using Supabase Auth and Row-Level Security.
- Built a multi-stage approval workflow (Employee upload → Manager review → Admin approval/rejection) with document version history and private file storage.
- Deployed on Vercel with GitHub-based continuous deployment and Supabase cloud database/storage, including complete audit logging for document and role actions.

EDUCATION

Master of Computer Applications (MCA) — Vellore Institute of Technology, Vellore

2024 | CGPA: 8.35/10

B.Sc. Computer Science — Vellore Institute of Technology, Vellore

2022 | CGPA: 8.56/10

LANGUAGES

Tamil (Native) | English (Proficient)
